Houston (Tex.), April 22d.—The yardmen of the Southern Pacific Railroad struck to-day, for what cause is not stated. The strikers number about fifty men. The freight traffic has been suspended since the trouble began.

Lower Wages Predicted.

New York, April 22d.—Speaking on the present labor troubles, a prominent Missouri Pacific Director said: In less than six months the reduction which it is believed will follow the present labor movement will make wages in this country the lowest they have ever been. Foreigners and all the idle labor in this country will come to the help of capital. Seven months ago the coal miners along the Ohio were getting 70 cents, and the consequence was that the railroad companies bought coal in other regions. When the striking miners resumed work, they were obliged to compete with others, and the result is that the people are now mining for 50 cents a ton, and the competition goes on, with prospects of lowering the prices of coal still further. The present trouble will end in like manner.

The Mapleson opera company passed through the city early vesterday morning on its way East from San Francisco. Mem-bers of the chorus occupied a second-class sleeping car, in which there were also some English tourists, and on the way up there was considerable of an unpleasantness be-tween the representatives of the two nationalities, caused mainly by some of the chorus being intoxicated and noisy, but no

ne was seriously hurt. The Nevada Transcript says: " Dr. George mons, of Sacramento, has purchased New Fire Brick Works.—N. The foundations for the buildings are now being laid. The structure will be 260 by 110 feet and four stories high. Steel boilers will be and the adjoining places will be under ultivation.'

Parties who came up from Rio Vesta yesterday stated that it was thought probable that Tom Summers, who received a charge of bird shot in his face while he was resisting arrest for burglary near that place last Tuesday, would lose the sight of both eyes. The charge of burglary against him will undoubtedly be made to hold, and makes his story of the battle, in which he was a participant, very interesting. On the whole, it was a worthy entertainment.

At the Sacramento Grammar School this afternoon there will be a celebration in ommemoration of the birthday of Alice Cary, the distinguished American authorss. She was born at Mount Healthy, near Cincinnati, in 1822, and died in 1871. She had but the slight advantages of education uch as were furnished by an occasional attendance at a country school, and none of the advantages of those who to-day ionor her memory. She first attracted at-ention by some sketches of rural life, pubished in the National Era under the sign cure of Patty Lee, and soon afterwar ecame a frequent contributor to pericals. In 1850 a volume of poems, the joint work of herself and a younger sister, Phœbe, was published in Philadelphia. This was followed in 1851 by her romantic poem of "Hualco," by "Lyra and Other Poems" the next year, and by a new collection of poems in 1855. ing the same period she published, un the title of "Clovernook," three series of

by a new collection of poems in 1855. Dursketches of Western life and scenery, and also three novels, the first of which, entitled "Hagar, a Story of To-day," appeared in 1853, and was quickly succeeded by "Married, Not Mated," and "Hollywood." The Westminster Review, in speak-ing of her, said: "No American woman ver evinced, in prose and poetry, anything ike the genius of Alice Cary."

The following lines are from her cele-

rated "Lover's Diary :' The fisher droppeth his net in the stream,
And a hundred streams are the same as one;
And the maiden dreameth her love-lit dream;
And what is it all, when all is done?
The net of the fisher the burden breaks,
And always the dreaming the dreamer wakes.

The Railroad Situation. San Francisco, April 22d.—As was anticipated by railroad men yesterday, the Southern Pacific Company and Union Pacific Railroad raised their East-bound passurages water to dentile the control of the co senger rates to-day to correspond with shifts.
the advance made by the Atlantic and Pacific and Atchison roads. The net rates now charged by all lines are as follows: Omaha and Kansas City, \$12 first-class and \$7 second; St. Louis, \$19 50 and \$14 50; Chicago, \$24 50 and \$19 50; New York, \$43 than there has been for some time. It is the general belief that the railroad war is about over, and that soon rates will reach a much higher figure, but it is not expected level of the Crown Point mine, after pre-level of the Crown Point mine, after prethat they will go as high as they were just before the breaking up of the Transconti-nental Association. The war has been one inagement of the contending roads. None of them have been at any time able to see what time would bring forth, and

the maxim that it is only the unexpected that happens has been verified to their sat-

at the present time they do not pretend to know, but it is their belief the war is over.

What the raise in rates means

It is also thought that some bigger game has been played than the public has any idea of, and that its results will not be Le Blanch through the heart. Death was made known for some time to come. Freight Car Robbers Arrested. SAN FRANCISCO, April 22d.—The Oakland police have under arrest four employes of the Southern Pacific Company accused of stealing blankets sent as freigh in the box-cars. In January last blanket valued at \$75 were stolen from a car. At the residence of each of the men arrested some of the stolen blankets were found. The prisoners are F. G. Lockwood, night sealer of cars, a resident of 1311 Center street; John Lucy, a switchman, who lives at 821 Market street; Robert Burnett, also a switchman, a resident of 764 Willow street; and Alfred Rearat, a switchman, living at 1804 William street. The men are all married. Lucy has been married but four months. At the residence of Lockwood were not only three pairs of the stolen blankets, but a quantity of hammers, hatchets, oil cans, shovels, wheel-barrows and other effects—the property of the railroad. A pair of stolen blankets were upon Luey's bed, and more of the blankets were found in Burnett's house. No stolen blankets were found in Rearat's house, but some were found in the residence of his mother-in-law, Mrs. Ennis.

They are accused of grand larceny. All the men were trusted employes of the railroad Grand Council, O. C. F. SAN FRANCISCO, April 22d .- At the afternoon session of the Council of Chosen Friends of California, yesterday, the following nominations were made for Grand officers: For Grand Assistant, A. B. Gibson, of Los Angeles, Charles, Cumpingham, of Angeles, Charles Cunningham, of Ukiah; Grand Recorder, Annie E. Evans and John Greenwell, of San Francisco, and E. J. Jolly, of Placerville; Grand Treasurer, S. W. McCormick, of San Francisco and Thomas Bromley, of Sacramento. The Council reassembled this morning at 10 o'clock. But very little business was done, although the session was a long one. The question of mileage was taken up and was under discussion for two hours before a vote was taken. Fruit Union. COLOMA, April 22d.—An important meeting of the fruit interests of this section of El Dorado county was held here yesterday under the auspices of the local Fruit Union, the object being to arrive at the sense of the fruit-growers as to the relative bearing of the California Fruit Union to the fruit industry. Manager L. A. Buck representing the State Union, and Platt on behalf of the shippers, appeared befor the Convention, and gave their views from their respective standpoints. D. E. Allison, ing the enormous surplus now coming into ring, and gave his observation and ex- | co perience during the last season. After listening to the details, as submitted by Manager Buck, it seems to be the unanimous opinion of the stockholders in the State Union, who compose three-fourths of the growers here, to allow that organization to ve absolute control of their fruit destined for Eastern shipment, and to stand by it in s entirety—at least for the coming season

nan Shot by Her Brother-in-Law.

Modesto, April 22d .- This afternoon out 4 o'clock, the report of a pistol was heard on Tenth street, in front of Perly & Granger's real estate office. Immediately an immense crowd gathered, and Thomas Farrell and I. L. Granger could be seen dis-arming H. I. Coffin, who had shot Mrs. William Shoemake, the wife of a well-to do farmer residing near this place. She and her two sisters were passing the door of Perly & Granger's office, when they met H. I. Coffin. Exactly what was said between the parties is not known, but the women solicited protection, and as they were entering the office Coffin made a rush, seized Mrs. Shoemake's right arm and shot her in the left. He was seized by Mr. matter. Granger and Thomas Farrell, and they succeeded in disarming Coffin. A Great Conflagration
That sweeps away a whole city, starts from a flame so small that a glass of water would extinguish it. In like manner, the most painful and fatal maladies of the throat and lungs ordinarily develop from small beginnings, not diffi-cult of cure if promptly treated with the proper remedy. But their progress is insidious and delay may be fatal. Colds and coughs lead to Laryngitis, Asthma, Bronchitis, Pneumonia, and Consumption. The only medicine certain to cure every bronchial and pul-monary affection not absolutely incurable is

Ayer's Cherry Pectoral. During 40 years it has steadily grown in popular estimation, and is now a household reliance in many thousands of families. Parents, whose lives were preserved by AYER'S CHERRY PECTORAL when they were young, are now sav-ing the lives of their children with it. Leading physicians extol its virtues and prescribe it in their practice. Intelligent druggists everywhere report noteworthy cures effected by it, within their personal knowledge.
